

Feeder Programming Change Letter

You may have heard recently that District 219 will no longer be directly supporting the Athletic Feeder Programs. District 219 has made a decision to move away from running Athletic Feeder programming to ensure that we are adhering to all IHSA guidelines and bylaws. We have been working with the different Youth Coordinators to provide a seamless transition and to provide other options to our District families. Although District 219 will not be responsible for running the Athletic Feeder Program, all athletic practices and contests will still run on site at District 219 facilities when available.

Football Programming Change Letter

District 219 has decided to move away from running Athletic Feeder Programming to ensure that we are adhering to all IHSA guidelines and bylaws. The Feeder Football program will now run through the Skokie Park District. Any questions you may have about the football program can be directed to the Skokie Park District Athletic Supervisor, Bob DeLeonardis, at the 847-929-7183. We are excited that the Skokie Park District will be supporting the High School with this new community football program.
